Use ProntoForms on your favorite mobile device

iOS (iPhone + iPad), Android™, Blackberry®, Windows® Phone and HP webOS

Ready for your paper forms to go mobile? Sign-up for our **FREE** trial and we'll do it for you!

Why take my forms mobile?

With the advent of smartphones and tablets, digital mobile form submission is now a business reality – Eliminating costly, inefficient and error-prone paper form processes. ProntoForms improves the accuracy and speed of reporting data from the field and enhances head office business tracking and reporting. **Most companies save thousands of dollars a year** per field worker just by eliminating form printing and repeat data entry alone.

Who's using ProntoForms and how?

Small to large-sized companies use ProntoForms – From jet pilots to plumbers, from gas and oil exploration engineers to every business type in between. Featuring inspections, checklists, field services, work orders, sales orders, invoices, direct store distribution, etc... ProntoForms helps you make the move as seamless as possible.

CUSTOMIZED - YOUR FORMS GONE MOBILE

Employees in the field access and enter data into their mobile devices quickly and easily.

- We move your forms onto mobile devices
- Captures: text, photos, signatures, barcodes
- Geo-location stamp with form submissions
- Look-up tables to retrieve the latest customer information, inventory, schedules, parts numbers, or pricing
- Skip logic, provides smart navigation based on answers through forms
- Calculations built into forms to save time in the field
- Easy to install and set up on your favorite mobile device
- Functions online or offline

MANAGEMENT AND REPORTING WEB PORTAL

Create and manage forms, dispatch jobs and monitor teams in the field.

- Better organize and monitor team activities
- Dispatch work orders to the team in the field (either individually or in group dispatches) and eliminate wasteful trips to the office
- Pre-populate forms. No repeat data entry
- Manage, organize and create your own forms
- Dashboard real-time reporting and notification options
- Share specific forms with specific field employees and teams
- Geo-location with form submission
- No server or hardware requirements

EXPORT AND CONNECT TO CLOUD SERVICES

Easily generate reports, connect to cloud services, and integrate with your back office system.

- Automated uploads by FTP or HTTP (PUT and POST)
- Sharepoint back-office connectivity
- Cloud services connectivity: Google Docs, Evernote, SkyDrive, Dropbox and Box.net
- Export to PDF, CSV, DOCX, XML
- Form submission notifications via Email, Facebook and Twitter
- REST API Interface to your office system
- Professional Services available for customized connection and integration available
